Tel: 01242 820100 Email: enquiries@rrhire.co.uk

240v Soup Kettle

POWER: 0.46kW, 220-240V, 2 Amp single phase. Mains power

- plug supplied.

CAPACITY: 10 Litre

DIMENSIONS: 340(diameter) x 240(h)mm.

FEATURES: Seamless stainless steel liner.

: Removable, hinged seethrough lid.

: Wet heat only

: Finished in smart graphic

black.

Caution

- Always disconnect the kettle from the electricity supply when not in use, when filling and when being cleaned.
- ✓ ALWAYS store the kettle in a dry area.
- ✓ NEVER move or carry the kettle when turned on, or containing hot food.

Usage

- 1) Plug the unit into electrical supply.
- The kettle uses WET HEAT, it is essential to add 0.6 litres of water between the stainless steel liner and internal aluminium liner.

NEVER overfill the liner with water.

- The temperature should be set between 1-8 and always operate the kettle at the lowest setting to maintain correct serving temperature.
- A neon light will glow when the unit is turned on. Turn the dial to '0' to switch off, unplug from the wall socket to isolate kettle from the electricity supply.
- Always keep the removable hinged lid attached and in the closed position when not serving.

WARNING

This appliance gets very hot. Take special care when children or elderly people are present. Take care NOT to touch the top or sides of the kettle as these areas get extremely hot, and will result in burns.

Cleaning

- Spilled food should be removed immediately from exterior surfaces during use.
- 2) Unplug the kettle and allow to cool down before cleaning.
- 3) The stainless steel bain marie and lid are machine washable.
- The painted exterior and top collar should be wiped over with a damp cloth.
- DO NOT wash the kettle with a high pressure jet.

Electrical & Gas
Safety Instructions

Tel: 01242 820100 Email: enquiries@rrhire.co.uk
